

## Integrated Award Environment Fact Sheet

### The IAE Systems

The IAE manages, operates, or maintains 10 electronic systems responsible for federal award processes. Those systems include:

**CFDA:** The [Catalog of Federal Domestic Assistance](#) (CFDA) is an online database of all financial and non-financial assistance programs, including grants, loans, and other types of domestic assistance administered by the federal government regardless of dollar size or duration.

**CPARS:** The [Contractor Performance Assessment Reporting System](#) (CPARS) is a suite of web-enabled applications used to document contractor performance required by the Federal Acquisition Regulation (FAR).

**eSRS:** The [Electronic Subcontracting Reporting System](#) (eSRS) is a single point of collection of subcontracting reporting data.

**FAPIS:** The [Federal Awardee Performance and Integrity Information System](#) (FAPIS) is an online application used to collect contractor and grantee integrity and performance information.

**FBO:** [FedBizOpps.Gov](#) (FBO) is the single government point-of-entry (GPE) for solicitations that are over \$25,000. It allows commercial vendors and government buyers to post, search, monitor, and retrieve opportunities solicited by the federal contracting community.

**FPDS-NG:** The [Federal Procurement Data System – Next Generation](#) (FPDS-NG) system is the central repository of information about federal contracts. It contains detailed information on contract actions over \$3,000 (FY2004 and later data).

## Integrated Award Environment Fact Sheet

**FSRS:** The [FFATA Sub-award Reporting System](#) (FSRS) is the reporting tool federal prime awardees (i.e. prime contractors and prime grants recipients) use to capture and report sub-award and executive compensation data for their first-tier sub-awards to meet the Federal Funding Accountability Transparency Act of 2006 (FFATA) reporting requirements.

**PPIRS:** The [Past Performance Information Retrieval System](#) (PPIRS) is the authoritative source for contractor performance information generated by Department of Defense (DoD) and U.S. civilian agencies. Through the Report Card (RC) module, PPIRS provides a view into contractor performance for large dollar value contracts.

**SAM:** The [System for Award Management](#) (SAM) includes entity and government registrants, annual Representations and Certifications and Exclusions, as well as reporting for Service Contracts and Bio-Based and Bio-Preferred Products.

**WDOL:** The [Wage Determination Online](#) (WDOL) website provides a single location for federal contracting officers to obtain Service Contract Act (SCA) and Davis-Bacon Act (DBA) wage determinations (WDs) required for each contract action.

\*The IAE also manages the [Federal Service Desk](#) that provides support for SAM, CFDA, eSRS, FBO, and FSRS.
